#14 Items for Discussion from Consent Agenda (County Administrator and Clerk of Circuit Court):

2 Reports received for filing:

- c. Pinellas County License Board for Children's Centers & Family Day Care Homes Financial Audit for Fiscal Year 2007-08.

Responding to query by Commissioner Seel, Commissioner Welch indicated that he would provide further information regarding funding of the Pinellas County License Board for Children's Centers & Family Day Care Homes by the Juvenile Welfare Board (JWB); and, later in the meeting, he related that the JWB will provide funding in the amount of \$610,000.00 during the upcoming fiscal year.

- d. City of Gulfport Urban Services Report for Proposed Annexation dated April 2009, pursuant to Chapter 171.42, Florida Statutes, regarding 171.12 acres generally located on the south side of Gulfport Boulevard South from 61st Street South northerly to Oleander Way South.

Responding to queries by Commissioner Welch, Mr. LaSala indicated that a map of the area proposed for annexation will be provided; and Assistant County Administrator James A. Dates indicated that he will provide additional information regarding the impact of the proposed annexation on the South Pasadena fire district.

- # 8 Resolution No. 09-68 adopted authorizing the submittal of a grant application for the Department of Energy's Energy Efficiency and Conservation Block Grant Program (County Administrator).

Responding to queries by Commissioner Seel, Assistant County Administrator Elithia V. Stanfield provided information regarding the number of jobs to be created under the program, and noted that certain wage requirements must be met for those jobs; that the monies must be expended within 18 months of receipt; that an interdepartmental work group reviewed all of the proposed projects; and that the jobs created will be in the private sector; and Director of Public Works and Transportation Peter J. Yauch provided additional information.

- # 9 Annual WorkNet Pinellas, Inc. Fiscal Year 2009-2010 Budget approved pursuant to the interlocal agreement between WorkNet Pinellas, Inc. and Pinellas County (County Administrator).

Responding to query by Commissioner Seel, President and CEO of WorkNet Pinellas Ed Peachey related that if WorkNet Pinellas and Success Training and Retention Services (STARS) do have customers in common, a determination of eligibility would have to be made on a case-by-case basis in order for WorkNet to pay for training for these individuals. He noted that the funds received under the Recovery Act must be spent within the next 15 months; and suggested that the funding of STARS participants could be a short-term solution to a long-term problem; whereupon, Commissioner Seel commented that if individual funding could be found for STARS, it might be possible to restore funding for other county programs.

- #16a Authorization granted to advertise a public hearing to be held on July 21, 2009, on a proposed ordinance amending Chapter 38, Article IV of the Pinellas County Code relating to the Pinellas County Community Housing Trust Fund Program (Community Development).

Responding to queries by Commissioner Seel, Community Development Urban Development Division Manager Bruce Bussey indicated that although the proposed changes were coordinated with housing staff, the cities have not been officially notified; and indicated that they will be notified immediately. He indicated that the Community Development Department is seeking opportunities to acquire and rehabilitate rental properties; and noted that Community Development has acquired an apartment complex in Clearwater through a Housing Trust Fund loan; and that those units have been rehabilitated and put into the county’s affordable housing inventory. Mr. Bussey stated that the proposed ordinance will expand the county’s ability to purchase vacant land

which could be added to the Community Land Trust for long-term affordable housing development.

Referring to the proposed revisions to be made with respect to loans for minor rehabilitation, Commissioner Seel suggested that a threshold figure could be used rather than provide a loan in an amount that will not increase the value of the unit by more than 50 percent; and Mr. Bussey indicated that while it is preferable to use a percentage, that change could be made; whereupon, Commissioner Bostock suggested the use of a lower percentage rate.

Responding to query by Commissioner Welch, Mr. Bussey related that when the original ordinance was drafted, the housing market was vastly different than it is today; and noted that in order to deter individuals from “flipping,” the minimum affordability period requirement was put in place; whereupon, he indicated that the proposed ordinance clarifies the minimum affordability requirement and eliminates the mandatory equity sharing requirement.

- #17 Contracts for Sale and Purchase with Katie Zellner, James McDuffy, Jeremy McDuffy, and Schenique Williams for acquisition of real property located in the Dansville Redevelopment Area (PID No. 991) approved (total purchase price, \$62,451.00; closing costs and costs of clearing title-related defects, \$10,800.00); Chairman authorized to execute contracts and the Clerk to attest (Community Development).

Responding to queries by Commissioner Brickfield, Assistant Director of Community Development Cheryl C. Reed provided information on the rationale of using a 2006 appraisal; and noted that the sale could not go forward as a voluntary acquisition unless that appraisal was used; and, in response to queries by Mr. LaSala and Commissioner Bostock, County Attorney Bennett indicated that the cost of the sale would increase three-fold if a more current appraisal was used.

#27 Other Administrative Matters:

- a. Interlocal Agreement with the City of St. Petersburg for construction of the Fred Marquis Pinellas Trail Overpass of 34th Street approved; funding not to exceed \$3,500,000.00; Chairman authorized to sign and the Clerk to attest; County Administrator authorized to execute and process all ancillary agreements required in connection with the project (Public Works).

In response to comment and query by Commissioner Welch, Director of Public Works and Transportation Peter J. Yauch referred to an aerial photograph showing the location of the overpass; and related that it is an in-line design; whereupon, Joe Kubicki, Director of Transportation and Parking, City of St. Petersburg, indicated that if the project is approved by the members today, the contract should be in process within a week; and that the duration of the contract is approximately 240 days.

Responding to queries by Commissioner Brickfield, Mr. Yauch noted that the loop in this area was closed when the City of St. Petersburg opened its section of the Trail approximately six months ago; and that although Penny for Pinellas dollars were originally slated for use on this project, Tax Incremental Financing (TIF) funds will be used.

Commissioner Seel commented that this project had been reviewed thoroughly by the Metropolitan Planning Organization; and Mr. Yauch confirmed that TIF funds will be used for the project, which will be repaid by Third Penny monies.

- #30 County Attorney authorized to initiate housing discrimination litigation on behalf of Phyllis J. Alley in the Claim of Phyllis J. Alley versus Les Chateaux Condominium Association, Housing and Urban Development Case No. 04-09-0465-8; Pinellas County Case No. 09-014.

Motion - Commissioner Welch
Second - Commissioner Seel

In response to comments and queries by Commissioner Seel, Attorney Bennett indicated that the County's Office of Human Rights provides education and training regarding housing discrimination; that the number of housing discrimination lawsuits has increased; and that the matters are generally resolved, but it often takes filing a lawsuit and educating the property owner to get their attention and cooperation; whereupon, he pointed out that a significant change occurred when the County recently absorbed cases from the City of St. Petersburg; and that the cases with merit have begun cycling through the system and have contributed to the increase in the number of lawsuits filed.

In response to concerns expressed by Attorney Bennett regarding the current budget situation and the ability of the Office of Human Rights to continue to provide education and training, Chairman Harris indicated that the Office of Human Rights included continued training in its budget; and noted that the County has taken over most of the cities' housing discrimination cases.

the entire EMS and fire service system, with inclusion of all stakeholders in the discussion.

Emergency Medical Services (EMS) Division Manager Craig A. Hare conducted a PowerPoint presentation titled *EMS Authority Hybrid Transport Proposal Analysis – June 16, 2009*, a copy of which has been filed and made a part of the record. He related that on April 22, 2009, representatives from the Pinellas County Council of Professional Firefighters conducted a presentation for an ad-hoc committee of City Managers, Fire Chiefs, and County Administration personnel regarding a proposal to use 25 existing rescue units for 9-1-1 patient transports; and that an analysis was prepared subsequent to the meeting.

Mr. Hare provided the following information relating to the findings of the committee:

- Hybrid study is too aggressive and not fact-based.
- Hybrid model has the potential for efficiencies; further study of consolidation and streamlining of service delivery should occur.
- Committee does not recommend instituting a partial fire-based transport program as a cost-saving measure until it can be thoroughly studied and fact-based conclusions reached.

In response to queries by the members, Mr. Hare provided detailed background information regarding the potential negative impacts associated with ambulance transport providers operating concurrently in Pinellas County; and reported that the County contracts with a single ambulance provider, Paramedics Plus, d/b/a Sunstar, for all ambulance transports. In response to a request by Commissioner Bostock, Assistant County Administrator James Dates agreed to provide data on concurrency numbers related to staffing for additional transport systems.

Responding to queries and comments by the members, Mr. LaSala provided information regarding a future study of the EMS System where, with member approval, a consultant will be hired to review the system and look for areas where improvement may be possible. Commissioner Welch related that although it will be a challenge to address both EMS and Fire Services concurrently, he wished to see a holistic approach used, and Commissioner Seel concurred.

In response to concerns raised by Commissioner Seel regarding the complex nature of the ambulance service contract, Mr. Hare related that all aspects of the agreement will be reviewed with the Board when the contract renewal is considered. At the request of Commissioner Brickfield, Mr. Hare, with input by Mr. LaSala, provided additional

information relating to the April 22 presentation, clarifying that the Hybrid Proposal was scrapped by the committee as not being financially obtainable; whereupon, he agreed to provide pertinent financial information regarding the overall proposal.

Following discussion, with input by County Attorney Bennett, Commissioner Welch moved, seconded by Commissioner Seel, that the *Analysis of the Hybrid Transport Proposal* be officially accepted.

Upon call for the vote, the motion carried 3 to 2, with Commissioners Bostock and Brickfield casting the dissenting votes.

Responding to query by Commissioner Brickfield, Commissioner Bostock stated that she is an alternate on the WorkNet Pinellas Board. Discussion ensued regarding appointments and reappointments to various boards, turnover, new members, reappointing long-serving individuals, and ensuring a mix of new individuals and experienced individuals; whereupon, Commissioner Bostock requested the opportunity to discuss looking at the various committees, who is appointed, how individuals are appointed, and how to ensure there is appropriate turnover on the committees. Chairman Harris provided input, noting that State law outlines who should be appointed to the WorkNet Pinellas Board; and that Commissioners can choose individuals to appoint to certain boards.
